Dear friend

Thank you - This
is the receipt written in
her dear handwriting
but now signed by me -
I grieve to hear of your
illness - doubtless a nervous

break down —

I too have gone all
to pieces — My desolation
and hunger for the voice
that is still increases
daily — But food
is done — The doctor
the best for us & the world

Though as yet we cannot
see it —

I am longing for your
new book —

affely yr
