BIOGRAPHICAL SKETCHES

John W. Diamond is Chief Executive Officer of Tax Policy Advisers, LLC, the Edward A. and Hermena Hancock Kelly Fellow in Public Finance at the Center for Public Finance at Rice University’s Baker Institute for Public Policy, and an adjunct professor of economics at Rice University. His research interests are federal tax and expenditure policy, state and local public finance, and the construction and simulation of computable general equilibrium models. His current research focuses on the economic effects of corporate tax reform, the economic and distributional effects of fundamental tax reform, individual portfolio allocation in the 2000s, and various other tax policy issues. Diamond was the forum editor for the National Tax Journal from 2009-2016 and has served on the Joint Committee on Taxation, United States Congress (2000-2004). He has also served as a consultant on the efficacy of structural adjustment programs to the World Bank. He received his Ph.D. in economics from Rice University in 2000.

George R. Zodrow is President of Tax Policy Advisers, LLC and Allyn R. and Gladys M. Cline Professor of Economics and Rice Scholar, Center for Public Finance, Baker Institute for Public Policy, at Rice University. He also holds an appointment as International Research Fellow at the Centre on Business Taxation at Oxford University. His articles have appeared in numerous scholarly publications and he has authored or edited several books on taxation. Zodrow was editor of the National Tax Journal from 2007-2016, currently serves on the Editorial Advisory Board of Public Finance Review, and has served as an editor of International Tax and Public Finance. He was a visiting economist at the US Treasury Office of Tax Analysis in 1984-85 during the preparation of Treasury I, the precursor to the Tax Reform Act of 1986, and has been involved in tax reform projects in numerous countries. In 2009, Zodrow was the recipient of the Steven D. Gold Award, presented by the National Tax Association for significant contributions to state and local fiscal policy. He received his Ph.D. in Economics from Princeton University in 1980.
